

APEX GPS & THEFT PROTECTION

Apex Protect® GPS Vehicle Management programs include Vehicle Protection Theft program offering multiple ways to protect customers and create new financial opportunities for your dealers. We combined a GPS device (aka Theft Recovery System) with the best Theft benefits in the market, along with driving customers back to the selling dealership.

The Difference

- Our GPS based program gives you the functionality of the product until you sell the car
- Valuable vehicle information for GPS, all in a mobile application for 6 months; available for 1, 3 or 5 Year upgrade
  - On demand location of every vehicle on your lot
  - Shorten the car sale process by finding cars quicker
  - Set speed and boundary alerts
  - Notified if low batteries or low fuel – both can kill a sale
- Mitigate risk by recovering stolen cars and reducing expensive theft claims
- Build retention and "close the loop with the customer" with real-time marketing info – at no cost!
- Sell the program to customers and create new, non-cancellable revenue in all departments
- Customers pay for inventory management, asset protection, service retention and marketing information
- GPS Program and multiple Theft products can increase PRU by up to $800

Theft Benefit Coverages & Advantage

- Trip Interruption Benefits provided in the Program, unless not permitted by the state.
  - Travel Allowance $200 per day/Max. $1000
  - Airfare Allowance $200 per day/Max. $1000
  - Rental Car Allowance $40 per day/Max. $500 (includes rideshare)
